

DES. No.15 of 1991

GOVERNMENT OF KARNATAKA

FULLY REVISED ESTIMATES
OF
PRINCIPAL CROPS IN KARNATAKA
FOR
THE YEAR 1998-89

Issued by
DIRECTORATE OF ECONOMICS AND STATISTICS
BANGALORE
1991

P R E F A C E :

The official estimates of area, production and average yield of Principal Crops grown in Karnataka are released annually in the form of Fully Revised Estimates by the Directorate of Economics & Statistics, Government of Karnataka, Bangalore. The current publication for the year 1988-89 is the thirty fourth issue in the series.

This publication embodies the final tables on area, production and average yield of principal crops grown in Karnataka during the year 1988-89. The area estimates are based on the annual season and crop reports received from the Tahsildars through the District Statistical Officers. The results of Crop Estimation Survey (1988-89), wherever available, are used in building-up the production estimates.

The data is presented districtwise for the year 1988-89. Summary tables embodying state level data for the years 1984-85 to 1988-89 are also presented.

This publication has been prepared in the Agricultural Statistics Division of the Directorate. It is hoped that it will be of immense use to Administrators, Planners, and Research Workers. Suggestions for improvement of this publication are welcome.

H.S.NAGARAJ
DIRECTOR
DIRECTORATE OF ECONOMICS & STATISTICS.

Bangalore,

Dated: 29th Jan.1991

C O N T E N T S :

NAME OF THE CROP :	PAGE NO:
Notes on Tables	1 - 3
PART-1 : Cereal Crops :	
Five Year trend in Karnataka, 1984-89	4 - 6
State Abstract for 1988-89	7 - 8
Paddy	9 - 18
Rice	19 - 28
Jowar	29 - 38
Bajra	39 - 43
Maize	44 - 53
Ragi	54 - 63
Minor Millets	64 - 70
Kharif Cereals and Small Millets (All Crops)	71
Wheat	72 - 74
Rabi Cereals (All Crops)	75
Summer Cereals (All Crops)	76
Cereals and Small Millets (All Seasons)	77
PART-2 : Pulses Crops :	
Five Year trend in Karnataka, 1984-89	78 - 80
State Abstract for 1988-89	81
Tur	82
Horsegram - Kharif	83
Blackgram - Kharif	84
Greengram - Kharif	85
Avare - Kharif	86
Other Pulses - Kharif	87
Kharif Pulses (All Crops - Excluding Tur)	88
Kharif Pulses (All crops - Including Tur)	89
Bengalgram (Gram)	90
Horsegram - Rabi/Summer	91
Blackgram - Rabi/Summer	92

Greengram - Rabi/Summer	93
Avare - Rabi/Summer	94
Other Pulses - Rabi/Summer	95
Rabi/Summer Pulses (All Crops - Excluding Bengalgram)	96
Rabi/Summer Pulses (All crops - Including Bengalram)	97
Pulses (All Seasons)	98
Foodgrains (All Seasons)	99
PART-3: Oilseed Crops :	
Five Year trend in Karnataka, 1984-89	100 - 101
State Abstract for 1988-89	102
Groundnut	103 - 105
Sesamum	106
Rape & Mustard	107
Nigerseed	108
Safflower	109
Castor	110
Linseed	111
Sunflower	112
Soyabean	113
Oilseeds (All crops)	114
PART-4: Commercial Crops :	
Five Year trend in Karnataka, 1984-89	115
State Abstract for 1988-89	116
Sugarcane	117
Cotton	118 - 122
Tobacco	123
PART-5: Plantation and Horticultural Crops :	
Five Year trend in Karnataka, 1984-89	124 - 125
State Abstract for 1988-89	126
Banana	127
Papaya	128
Cashewnut	129 - 134
Potato	135

PART-5: Plantation and Horticultural Crops (cont d.)	136
Tapioca	137
Onion	138
Sweet Potato	139
Coconut	
PART-6: Condiments and Spices Crops :	140 - 141
Five Year trend in Karnataka, 1984-89	142
State Abstract for 1988-89	143
Dry Chillies	144
Dry Ginger	145
Turmeric	146
Cardamum	147
Garlic	148
Black Pepper	149 - 150
Arecanut	151
Coriander	
PART-7 : Miscellaneous Crops :	
Five Year trend in Karnataka, 1984-89	152
State Abstract for 1988-89	153
Mesta	154
Sunhemp	155
PART-8 : Index Nos. of Area, Production and Productivity of Principal Crops, 1984-89	156 - 160

NOTES ON TABLES

1. Fully Revised Estimates of Area, Production and Average yield of Principal Crops grown in Karnataka State during the year 1988-89 are presented in the tables contained in this publication.

2. The village-wise crop area coverage together with other land use particulars are compiled from the source document of RTC (Pahani) recorded and submitted by the Village Accountants to the Tahsildars, at the taluka level, based on which the Statistical Inspector of the Directorate of Economics & Statistics attached to the Taluk Office prepares annual season and Crop Report for the taluk and submits it to District Statistical Office. The District Statistical Officer, in turn, consolidates the annual season and crop report for the district and forwards it to the Directorate of Economics & Statistics. At the state level, the annual season and crop report is compiled based on the district reports and the same is adopted for use in this publication for crop area coverage data.

3. At present production estimates are prepared in respect of 49 principal crops grown in Karnataka. Average yield data estimated through the scientific analysis of crop cutting experiment results are adopted for working out the production estimates in respect of the following 27 crops which are covered under Crop Estimation Survey.

CEREALS : 1. Rice, 2. Jowar, 3. Bajra, 4. Maize, 5. Ragi, 6. Wheat, 7. Haraka, 8. Navane and 9. Save.

PULSES : 1. Tur, 2. Gram, 3. Horsegram, 4. Blackgram and 5. Greengram.

OILSEEDS: 1. Groundnut, 2. Sesamum, 3. Safflower, 4. Sunflower, 5. Castor and 6. Linseed.

COMMERCIAL CROPS: 1. Sugarcane, 2. Cotton, and 3. Tobacco.

HORTICULTURAL CROPS : 1. Banana, 2. Onion, 3. Potato and 4. Turmeric.

4. In respect of the following 22 crops no crop estimation Survey estimates are available as no crop cutting experiments are planned. For these non-CES crops, yield rates based on traditional methods are adopted to work out the production estimates.

CEREALS : 1. Baragu, 2. Badlivari and 3. Other Small Millets.

PULSES : 1. Avare and 2. Other Pulses

OILSEEDS: 1. Nigerseed, 2. Rape & Mustard and 3. Soyabean.

HORTICULTURAL AND PLANTATION CROPS :

1. Papaya, 2. Cashewnut, 3. Tapioca, 4. Sweet Potato and 5. Coconut.

CONDIMENTS AND SPICES CROPS :

1. Dry Chillies, 2. Dry Ginger, 3. Cardamum, 4. Garlic, 5. Black Pepper, 6. Arecanut and 7. Coriander.

MISCELLANEOUS CROPS :

1. Mesta and 2. Sunhemp.

5. Production estimates for the district are obtained by multiplying the area figures by the respective yield rates in respect of individual crops. A bund correction of five percent is applied in respect of Cereals, Pulses, Oilseeds and Commercial Crops which are covered under Crop Estimation Survey. (In other words 5 percent of area is deducted out of the total area under the Crop towards bunds, water channels, foot tracks, etc.). The division level and state level production estimates are obtained by the sum of individual district and division figures respectively.

6. Seasonwise production estimates under each crop, cereals (all crops/seasons), Pulses (all crops/seasons), foodgrains and Oilseeds (all crops) are obtained by the sum total of the respective variety or season or the individual crop, as the case may be. The pooled average yield in such cases is obtained by dividing the production figures by the respective area figures after applying necessary bund correction as the case may be.

7. In the case of CES crops, wherever district yield rates are not available, the concerned division average yield rate is adopted for working out the production estimates of such districts. In the absence of the division average yield, the state average yield

is taken as the average yield of the division and district.

8. Production of Rice is given in terms of raw rice, that of Groundnut in terms of nuts in shells and Sugarcane in terms of Cane.

9. The unit of measurement of production is as follows :

Cotton - Bales of 170 Kgs in Lint form.

Mesta - Bales of 180 Kgs.

Black Pepper & Dry Ginger - Quintals

Coconut - Thousand nuts

All other Crops - Metric tonnes.
