## **PREFACE**

The Directorate of Economics & Statistics, Government of Karnataka brings out an annual publication on the estimates of area, production and yield of principal crops in Karnataka. This publication for the year 2022-23 is the **Sixty Eighth** issue in the series.

It contains valuable district-wise statistics on area, production and yield of principal crops in the State during the year 2022-23. It covers **60** Major crops in Karnataka. The production estimated on the basis of reconciled GIS enabled mobile based crop survey area. The yield is based on the results of crop cutting experiments conducted under Crop Estimation Survey, Oral Enquiry Method, the Crop Estimation Survey on Fruits and Vegetables crops and for horticulture crops yield is considered as per “Horticulture Crop Statistics of Karnataka State at a Glance”.

I am sure that, this publication will be of immense use to the Planners, Administrators, Statisticians and Agricultural Researchers. Further, co-operation extended by the staff of DES, Revenue, Agriculture and Horticulture Departments is here by acknowledged with gratitude.

This publication is prepared in the Agricultural Statistics Division of the Directorate of Economics & Statistics. The efforts of the Division is also acknowledged.

## INTRODUCTION

Fully Revised Estimates of Area, Production and Yield of Principal Crops grown in Karnataka State during the year 2022-23 are presented in this publication. It covers **60** Major crops in Karnataka. The production estimated on the basis of reconciled GIS enabled mobile based crop survey area. Yield data is estimated for 31 principal crops under the Crop Estimation Survey (CES), 9 Crops (Fruits -7 & Vegetables-2) are covered under Crop Estimation Survey on fruits and vegetables. 20 Crops are covered under Non CES Crops, of which for 11 horticulture crops yield was considered as per ‘Horticulture Crop Statistics of Karnataka State at a Glance 2021-22’ of Horticulture department. For Nigerseed and Mustard crops yield arrived through Oral Enquiry Method and for remaining 7 crops production is not estimated due to less area. Area, production and yield estimates of Rice, Jowar, Bajra, Maize, Ragi, Wheat, Bengalgram, Groundnut, Sunflower, Safflower and Cotton crops are given for irrigated and un irrigated separately.

- District-wise Production estimates are obtained by multiplying the area by the respective yield in respect of individual crops. A bund correction of Two percent (2%) is applied in respect of cereals, pulses, oilseeds and commercial crops, which are covered under Crop Estimation Survey. In other words Two percent of area is deducted out of the total area under the crop towards bunds, water channels, foot tracks etc.
- In case of districts not covered under Crop Estimation Survey, estimates are worked out by taking weighted average of the yield of the districts covered by the survey. The pooled yield is obtained by dividing production by area after applying bund correction factor.
- Yield estimated in case of 9 crops covered under the Crop Estimation Survey on Fruits and Vegetables are adopted without applying bund correction.
- Yield of Rice is given in terms of Paddy, Groundnut in terms of nuts in shells, Sugarcane in terms of cane, Tobacco in terms of leaves, Castor and Sunflower in terms of seeds, Cotton in terms of lint and for the remaining Crop Estimation Survey crops in terms of grains only.
- The unit of measurement of production : Mesta - Bales of 180 Kgs, Cotton- Bales of 170 Kgs. in lint form, Black Pepper and Fresh Ginger - In Quintals, Coconut - In thousand nuts and All Other Crops - In Tonnes.
